

DL7200C

Stepper motor controls stitch length and reverse stitch. It enables precision control over the stitch length to get an accuracy of 0.1mm and gives reverse stitches precisely on the top of the previous ones.

產品特點

FEATURES

1

Patented inclined plane design of auto. presser foot lifter will lead to a significant increase of the electromagnetic service life and enhance its durability.

2

Big hand wheel with cooling fan design improves the heat dissipation efficiency.

3

Intelligent control panel with USB port

4

Up to 9 standard sewing patterns for different needs and the sewing patterns can also be customized upon request.
