LBHS-1790S SERIES ELECTRONIC BUTTON HOLING MACHINE

COMPUTER-CONTROLLED, HIGH-SPEED, LOCKSTITCH, BUTTONHOLING MACHINE

LBHS-1790

S

Model

Computer-controlled,
high-speed, lockstitch,
buttonholing sewing machine

Code Application

A General buttonholing

L 120mm Long presser foot equipped
(continuing stitch function applicable)

FEATURES

Original setting of counter function, can be added or decreased according to the operator's requirements and needle. The operator has a wider space when sewing to ensure working efficiency.

Driving with stepping and servo motor to simplify the mechanism, to position precisely, to save time and electricity, to maintain easily

Advanced dry-head and oil-free design, no oil stains on the fabric when sewing, effectively raises the sewing quality.

Modularized gauge set, convenient to change and assemble, multi-functional and increases the efficiency for manufacturer

Multi-functional and pictographic three-color LCD operation panel, easy to understand and operate.

Idiotproof and breakdown alert system, convenient to maintain.

Original setting of cycle sewing system, able to sew with many different patterns continuously depending on operator's requirements.

Equipped with thread breaking detector. If breaking happens during sewing the sewing action will stop immediately. After threading again, the needle will return to the same position when breaking happened, no need to restart. Increases sewing efficiency.
